

# Operational Plan

Master Reception  
Committee IT 2017

# Our goal

MRCIT17 will begin a new tradition of providing the new master students of both master programmes at IT (Interaction Design and Software Engineering) with a reception.

This reception should be completely free for all attendees, and our primary focus is on making everyone feel welcome and try to bring people together.

Earlier years, the two master programmes hasn't had much connection, hopefully the reception can establish some sort of connection.

## First Week

Quiz walk & Treasure Hunt

Pub

Do the pub crawl together

Barbeque in Keller's Park

## Second Week

Fika with teachers and students, to talk about courses (and fika is delicious)

Wine & Design

Sauna

Sittning
