

Budget Amendment

Erik Johnsson & styrIT

Background

The Programme Management Team (Programledningen) has given the Student Division the opportunity to utilize a room on the Lindholmen campus. The room is currently not furnished and this year's budget has not taken this expense into account. The Programme Management Team will presumably be able to pay for part of the expenses, however, they will not cover everything. Since furnishing is required for proper utilization of the room the Student Division Board (styrIT) proposes to amend our current budget with a new budget line worth *50,000 SEK* towards this goal.
